ARTISANS SINCE 1989

OUR BESPOKE SERVICE

FOR NATURAL STONE AND TILES.

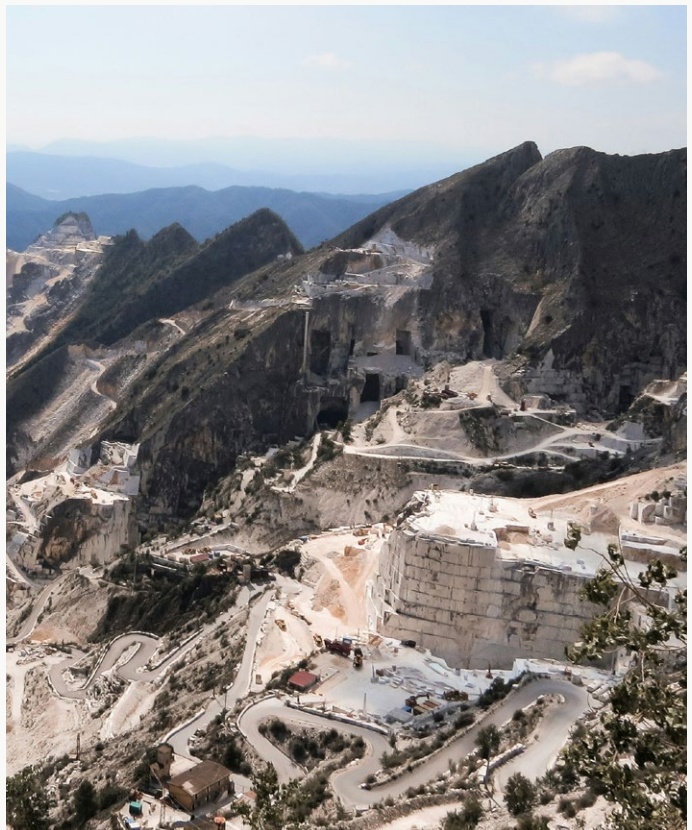

The right stone can define an entire scheme. We are a UK, project based specialist with over thirty five years of experience and a global supply chain, here to help you find rare and beautiful materials, shape them to your drawings and see them installed exactly as intended.

THE MATERIAL.

Sourced for you, from across the world.

Every project begins with the material. Through our global supply chain partners we can source marble, limestone, quartzite, onyx and a great deal more, in tile and slab formats or as solid blocks.

When a scheme calls for something particular we will go and find it. Where it helps, you are welcome to join us on a sourcing trip and select your own slabs in person, so the piece you specify is the exact piece that arrives on site.

01. MATERIAL OFFERING.

Sourced from our global supply chain partners.

- Limestone
- Marble
- Quartzite
- Travertine
- Terracotta
- Granite
- Exterior hard landscaping and paving
- Sandstone

- External paving and steps
- Kitchen worktops
- Tabletops
- Fireplaces
- Countertops
- Hand carved signs and monuments
- Bespoke profiling and edge works
- Specialist surface treatments and finishes for all materials, including wet and external applications

WORKING WITH YOU.

From first sample to final handover.

Our in-house team shapes each material to your design, with sample boards and finishes prepared so you can see and feel the result before anything is cut.

We then template, render, set out and install the finished work, managing every stage on site. You hold the relationship with one specialist team, so the detail you sign off is the detail that gets delivered.

03. HOW WE SUPPORT YOUR PROJECT.

Design support through to installation.

- Three dedicated showrooms
- Own on-site fabrication workshop and slab processing factory for bespoke services
- Internal slab warehouse - displaying own core product ranges
- Sample boards delivered to design/client teams for approval
- Free samples
- Sampling of bespoke profiles and finishes
- Full slab rendering service
- Digital scan templating service
- Grout sampling for presentation
- Moisture testing across all tile installation areas
- In house slip testing and certification to ensure suitability and fit for purpose SRV
- UK wide tile and bespoke installation service available
- Siliconing and protection to completed works
- Materials specification support
- Consultancy and technical support and advice for materials suitability and practicality Material sourcing trips for selection
- In-house CAD team
- Setting out drawings for tiling
- Tanking by Schluter approved team members
- On site project management
- Final seal and polish to completed areas
- Restoration and remedial works on existing installations
- Recommendations for ongoing upkeep and maintenance
- Operation and maintenance manuals on completion

AN INVITATION

Bring us your drawings, your mood boards and your most ambitious ideas. We will help you find the material, make it beautiful and see it installed, exactly as you visualised it.

Speak to our projects team about material selection, samples and a showroom visit. Visit capietra.com or contact your Ca' Pietra project consultant.

MEANING AND ORIGIN.

The name is of Italian origin, translating literally to "House of Stone" ("Ca'" is a short, dialectal form of casa meaning house, and pietra means stone). Even though the luxury tile brand Ca' Pietra is a British family-owned company, it retains this authentic Italian pronunciation – pronounced... Kah Pee-ay-tra.
