2022/23

“
As soon as we
visited the baths,
the connection
between our
Rituals collection
and the building
was immediate.”
”

Artisans of Devizes Stone Experts, Tile Makers

A heritage British brand born and raised in the market town of Devizes, our creative, specialist team prides itself on two things – the mastery of stone and tile craftsmanship and the joy of bringing them to homes, spaces, and places near and far.

Rituals Collection

This Autumn/Winter we launch the Rituals tile collection; a refreshing new collection designed to give a sense of peace and rejuvenation to homes and projects.

The Rituals collection has been inspired by interiors that energise, balance, and restore our inner natural beauty. Mindful of our inherent need to rejuvenate and realign, this inspiring range is just what is needed to soothe the soul.

Featuring sustainable and carbon neutral materials, glossy porcelains, pops of colour, marble mosaics, glazed and fluted ceramics, and Moroccan-style terracotta, there is a tile in this collection to complement any décor scheme.

Victoria Baths

“We stumbled upon this Victorian era treasure by chance- and fell in love with the building, its fascinating history and calm, timeless atmosphere. Built in 1906 in Manchester to serve as a community swimming baths, this building was later abandoned. However, over the past twenty years, the baths are on their way to being restored to their former glory and are a joyous example of Victorian design.

“As soon as we visited the baths, the connection between our Rituals collection and the building was immediate. From the crackle-glazed bricks that line the floors and ceilings of the Turkish baths, to the hand-laid marble mosaics in the hallways, the whole building was designed to promote wellness, relaxation, and rejuvenation.

“With our Rituals collection, we hope to create spaces that have the same longevity and durability and to contribute to design schemes that will last for years to come.”

Hamish Smith, Managing & Creative Director

Serious About Sustainability

Here at Artisans of Devizes, we are passionate about preserving our planet. We work with our suppliers to continually improve the sustainability of our tile collections, adding recycled materials and consciously looking to introduce products with recycled content each new season.

We are also committed to using recyclable materials for all our packaging and are proud that our natural stone and tiles will last a lifetime, reducing the need for replacements and minimising waste.

Sequel Reformed Stone

We are incredibly proud to introduce our new, ground-breaking eco-tile range Sequel. Comprised of 60% recycled material, Sequel is produced in a small, carbon neutral factory in Italy, where the environment comes first.

Sequel is made using waste material that would otherwise be disposed of by the stone industry, from powder to chips of marble, granite, and limestone.

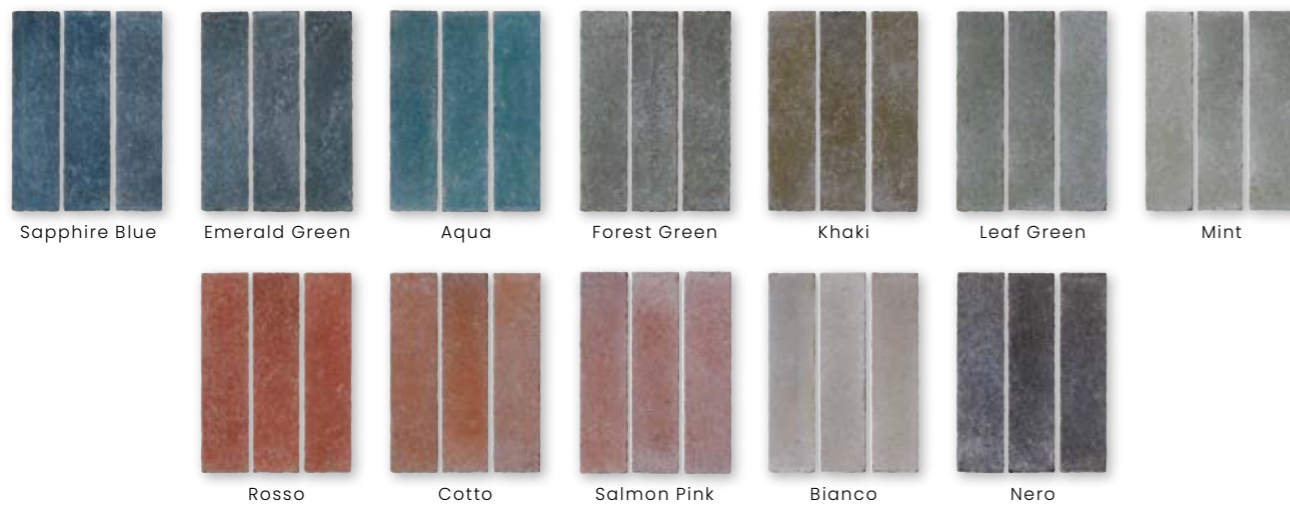

Available in a range of colours and shapes, from soft pastel tones to bold, rich greens and blues, Sequel is suitable for walls and floors, both indoors and out. Its versatility means that it can look both gentle and natural, or contemporary and bold.

With so many layout options, there is bound to be something that will suit your project. Not only does it bring style, but it brings sustainability too.

Sequel
