Please note: All prices in this brochure are recommended retail prices including VAT.

We try our best to ensure all images, descriptions and prices are accurate, if you see something in here that doesn't look right, please let us know and we'll make sure we amend it as soon as possible. Errors and omissions expected (E&OE) is a phrase used to reduce legal liability for potentially incorrect or incomplete information supplied in a contractually related document such as a quotation or specification. Whilst we try our best not to make errors, if you do spot a pricing error, you will still need to pay the correct price. Pricing within this brochure may be subject to change.

As you browse this brochure, please note: Due to the nature of natural stone and terracotta, there will always be colour variation from stone to stone, along with chips and other organic blemishes. Allowances should also be made for size and thickness – particularly so with our more rustic products. These features are an intrinsic part of natural materials, adding beauty, charm and character that will be unique to your home.

The colour of our stone and tiles can vary slightly from the images in this brochure, due to natural variation in stone batches and the limitations of photography and print. To see more images and to order samples, please visit capietra.com

LET'S TALK

TILES

Hello and welcome to our collection brochure. Full to the brim of tiles that I hope you will fall hard for.

Have a look and take it all in, because our collection is jam-packed with newness, classics, best-sellers and, I hope, heaps of inspiration.

One thing's for sure, I'm confident that whatever you pick, your tiles will be the talk of the town.

Happy browsing.

STONE, TILES, DECOR & DETAIL

THAT'S US DOWN TO A TEE

CA' PIETRA IS A PLACE OF CURATION

We're designers of trend-led tiles for your home and garden with new collections released throughout the seasons.

We're sculptors of natural stone so that you can choose everything from chiselled limestone flagstones for your kitchen floor to elegantly honed marble mosaics for your bathroom walls.

And we're hunter-gatherers for Europe's most meticulous makers that takes us from Britain to Italy and the tile ateliers of Spain.

With the right stone underfoot and your meant-to-be tiles lining your walls, your home (and everyone who's in it) is going to feel a whole lot happier.

In our book, that's a beautiful, mood boosting thing, and so rest assured through our collections and unwavering customer care, we will stop at nothing to box up that feeling and bring it to your front door.

IF IT DOESN'T
MAKE OUR
HEARTS BEAT A
LITTLE FASTER,
THEN IT DOESN'T
MAKE THE
COLLECTION.

OURS ARE
LOVE-AFFAIR
KIND OF TILES,
NOT ONES
THAT'LL
JUST DO.

AND THE AIM OF GIVING YOU A DAILY
DOSE OF HAPPINESS IS BAKED INTO
EACH AND EVERY ONE.

CA' PIETRA

CURATED

Because choice is a fantastic thing, but too much and it all starts to get a bit overwhelming.

We curate our collections to give you a balanced blend of understated stone that's totally timeless as well as upbeat, trend-led tiles bursting with uplifting colour and toe-tapping pattern.

Not too much, not too little, but just right – we hope.

CARE

We're very particular about using the word care over service, because we're a team that puts heart into every person and every home that comes our way.

We know our stuff, we're on hand to help with decision-making as much as tile TLC and maintenance, and rest at nothing other than to help make sure your renovation gets off on the right foot.

CONSCIOUS

Consciousness covers a multitude of meanings for us.

We're conscious of the planet when creating our collections, working hard to put back what we take. We use recycled packaging when sending samples and have created many tiles using upcycled materials.

We're conscious of our customers and approach everything from your POV, such as introducing our multi-layered sample service following your feedback.

And we're conscious that all brands can always be better, so are constantly striving to make improvements in all that we do.

WHERE TO BUY

READY TO BUY YOURSELF SOME TILES?

Because everybody's different, we've made sure there are a few ways you can go about it.

BROWSE ONLINE

You can find all our products on our website, as well as heaps of inspiration on there too.

TRY BEFORE YOU BUY

If you'd like to see a sample before you take the plunge, you can order up to six cut samples for free, or you can buy full-tile samples if you'd like the bigger picture. You can get hold of tile samples on our website or by visiting your local Ca' Pietra retailer.

SEE THEM IN-STORE

Or, for those of you wanting to see our collections in-person (seeing is believing after all), you can browse and buy at any of our partner stores. Be sure to call ahead before you hit the road though – just to make sure the tiles you're wanting to see are on show.

CLOSA TETBURY

WHEN IT'S TIME TO BUY

You can find your local Ca' Pietra retailer by visiting our Where To Buy section on the website, we recommend visiting any one of our retail partners to order when it's time to decide and buy.

THE COLLECTION

OUR CA' PIETRA STONE AND TILE COLLECTION STARTS RIGHT HERE.

NATURAL STONE

Totally timeless and totally true to your home,
because no two centimetres of stone are ever
the same.

- 20. LIMESTONE, SANDSTONE & SLATE
- 76. MARBLE
- 95. TERRACOTTA
- 98. COMPOSITE STONE

Please remember that natural stone is just that – natural; so variation and blemishes are to be expected, as is the need to seal and maintain the material. We have built up a large collection of photography over the years, so head to our website at capietra.com for more images of any of our beautiful natural stones, and be sure to order samples before placing your final order. It is important to make sure your installer has the know-how to work with natural products.

01

LIMESTONE • SEASONED

AGENCOURT

Beautifully rustic with moody grey and charcoal tones, this vintage looking French limestone is perfect for traditional country design schemes.

This product will be retiring soon, please check stock levels before ordering.

FORMAT (CM)	£M² INC VAT	SOLD BY
61 x Random x 2	£225.00	m² Suitable for interior floors, sealing required.

Good to know: this one's a natural stone, and that means it'll react to the environment it's in. When it's first installed, don't be alarmed if its appearance alters slightly. It's natural, it's normal and it's all part of your stone adapting to your home.

LIMESTONE • VELVET

BEAULIEU

This French limestone is an amazing match for an ancient stone from a quarry that was exhausted a hundred or more years ago. This quarried stone has all the characteristics of the original classic.

FORMAT (CM)	£M² INC VAT	SOLD BY
30/40/50 x Random x 2	£185.00	m² Suitable for interior floors, sealing required.

Good to know: this one's a natural stone, and that means it'll react to the environment it's in. When it's first installed, don't be alarmed if its appearance alters slightly. It's natural, it's normal and it's all part of your stone adapting to your home.

LIMESTONE • DISTRESSED

BERGAMO

For the distressed finish, tiles are hand-worked to create an age-worn look, then softly rounded. This hard but elegant limestone is veined and fossil rich with plenty of character.

FORMAT (CM)
60 x Random x 1.8

£M² INC VAT
£150.00

SOLD BY
m²

Suitable for interior floors, sealing required.

LIMESTONE • TUMBLED

BERGAMO

The soft, warm cream tones of this durable limestone are muted and softened by the tumbled finish, whilst retaining plenty of character.

40 X 40 X 1.5CM WITH LUCCA TUMBLED

60 X RANDOM X 1.5CM

FORMAT (CM)	£M² INC VAT	SOLD BY	Suitable for interior walls and floors, sealing required.

40 x 60 x 1.5	£90.00	0.24m²	
60 x Random x 1.5	£92.00	m²	

LIMESTONE • TUMBLED

CALCOT

The sister stone to our best-selling Neranjo limestone with some extra character and fossils. This stone could easily be mistaken for an English limestone.

FORMAT (CM)
60 x Random x 1.5

£M² INC VAT
£87.50

SOLD BY
m²

Suitable for interior
walls and floors,
sealing required.

LIMESTONE • TUMBLED

CASTILAN

The format may be small, but Castilan is big on character- with a subtle, organic-looking blend of cream, brown and beige tones and occasional speckled fossils. The parquet is an ideal choice for herringbone paths and passageways, and can be paired with our Rohan, Vienne, Pont Neuf and Charmot ranges.

£135.00

SOLD BY
m²

Suitable for interior
floors, sealing required.

CORFE LIMESTONE COLLECTION

This very hard grey limestone has soft tonal variance, and is full of scattered white fossils. It's a characterful material perfect for both modern and traditional homes.

CORFE ETCHED

CORFE ETCHED

The underlying grey in Corfe limestone is 'bleached' by the etching process, and so it does look quite different to the other finishes. The etching gives the stone a good grip finish for wet and exterior use as well as a fantastic, tactile look that works well in contemporary interiors.

FORMAT (CM)	£M ² INC VAT	SOLD BY	
60 x Random x 2	£125.00	m ²	Suitable for interior and exterior floors, pool surrounds, sealing required.
Bullnose coping: 40 x 100 x 4	£186.11 each	Piece	

CORFE HONED

With deep, moody tones of grey and charcoal with lots of natural fossils, this limestone is reminiscent of the very hard limestones found on the Isle of Purbeck in Dorset.

FORMAT (CM)
60 x Random x 1.5

£M² INC VAT
£110.00

SOLD BY
m²

Suitable for interior walls and floors, sealing required.

CORFE HONED

CORFE TUMBLED

Applying the tumbled finish to Corfe limestone adds a soft, rustic look and character to this natural stone. The beautiful moody tone of grey is the perfect foundation for homes.

FORMAT (CM)
60 x Random x 1.5

£M² INC VAT
£110.00

SOLD BY
m²

Suitable for interior walls and floors, sealing required.

CORFE TUMBLED & ETCHED

The tumbled and etched finish has a modern yet rustic look, making it the perfect stone for fuss-free terraces, patios, and pools, whilst offering additional grip indoors.

LIMESTONE • TUMBLED

EIFFEL

The powder-soft colouring and texture of this limestone makes it a perfect addition for a modern townhouse or country kitchen.

FORMAT (CM)	£M² INC VAT	SOLD BY
60 x Random x 2	£147.50	m² Suitable for interior floors, sealing required.

Good to know: this one's a natural stone, and that means it'll react to the environment it's in. When it's first installed, don't be alarmed if its appearance alters slightly. It's natural, it's normal and it's all part of your stone adapting to your home.

LIMESTONE • VELVET

ENKI

With its velvety soft finish, this limestone feels great underfoot and looks stunning over large areas. Enki features lots of natural variance, with swirling veins and patches of taupe, cream, white and warm grey.

FORMAT (CM)	£M² INC VAT	SOLD BY	
61 x 91.5 x 1.5	£144.00	0.558m²	Suitable for interior walls and floors, sealing required.
Parquet: 7.5 x 30 x 1.2	£95.00	0.022m²	

LIMESTONE • TUMBLED

FONTAINE

A perfect stone for large, open spaces. Fontaine is dense and clean with subtle variations in tone and occasional fossil markings. A little like marble that has aged and mellowed, this is a sophisticated stone that gets better with time. To achieve this look with cabochons, see page 316.

FORMAT (CM)	£M² INC VAT	SOLD BY	
40 x 40 x 1.2	£140.00	0.16m²	Suitable for interior walls and floors, sealing required.

LIMESTONE • SATINO

WELTZNER

This is a strikingly-textured, hard limestone with lively colour tones ranging from steel grey to putty and plenty of character in the shell markings and veins. It's an ideal option for larger spaces which do justice to the stone's full beauty.

FORMAT (CM)	£M² INC VAT	SOLD BY	
Parquet: 9 x 40 x 2	£150.00	0.036m²	Suitable for interior floors, sealing required.
60 x Random x 2	£206.00	m²	
Good to know: this one's a natural stone, and that means it'll react to the environment it's in. When it's first installed, don't be alarmed if its appearance alters slightly. It's natural, it's normal and it's all part of your stone adapting to your home.			

LIMESTONE • TUMBLED

WEXFORD

An extremely fine and hard limestone with inky, blue-black tones. The colour of these cobbles will vary with nature, depending on the light and whether they are dry or wet.

VICTORIAN STYLETM DÉCORS

The carnation flower was a popular motif featured heavily in Victorian designs. We've taken inspiration from the flower and produced a hand-painted effect border tile. They come in an array of gorgeous tones and pair well with our Victorian Wall collection.

Our Acanthus Wall Décor tile gives a nod to traditional tiles found in Victorian designs. The tile comes in an aged effect to emulate traditional enamelled ceramics, which adds authenticity to the design.

WIGHTWICK

A visit to Wightwick Manor in the West Midlands revealed original tiles made by William Frend De Morgan, a 19th century potter and tile designer who rediscovered the lost techniques of reactive metallic tile glazing. Our Wightwick ceramic wall tiles reflect his work, with jewel-like tones, a textured gloss finish and iridescent variations.

WILD BOTANICALS

BY CLARISSA HULSE

Clarissa designed this truly stunning collection of tiles to bring the wild beauty of nature into kitchens, bathrooms and even steam rooms. With a random mix of designs, and available in three colourways, Wild Botanicals features the silhouettes of different British wild flowers or meadow grasses against a soft watercolour wash in midnight Blue, smoky Green or blush Pink.

*Pink will be retiring soon, please check stock levels before ordering.

WILTSHIRE HARES

BY JOANNA MAY

This eye catching collection designed by Wiltshire artist Joanna May features eight different miniatures of wild hares in various poses. Hand fired in our own kiln, these tiles have a traditional yet playful farmhouse feel, and evoke an instant connection with the rolling hills and grassland of the hares' natural habitat.

DESIGN FLOORS

For when you want to add a special touch to your floors to really elevate your space.

CHEQUERBOARD

Chequerboard floors are firmly back and they look STUNNING in both contemporary or traditional homes. Create this look with both natural stone or porcelain.

TILE BORDERS

We can cut tiles to size to create borders. It's ideal if you want to enhance a room and really does make the space feel finished. We LOVE a border at Ca' Pietra.

SKIRTING

Imagine skirting boards that never shows scuffs and wear, and never require repainting. Sounds dreamy, right?

Not only can tile skirtings match the floor in the room for an elegant touch, but they are also much more durable than traditional wood skirting boards and need next to no maintenance.

We can cut skirtings from tiles in our own workshop, which will match your floor beautifully.

Prices on application, please enquire with your retailer.

CABOCHON FLOORS

So you want to add a little something special to your floors? Enter, Cabochons.

Cabochon floors are created by cutting off the corners of a square tile, and then popping a smaller square tile in-between. We recommend going for a contrasting colour of cabochon for ultimate impact. We can manufacture these to order. For bespoke sizes and shapes please speak to your local retailer.

1. Choose your main tile

Any of our square tiles of porcelain or stone can be cut for cabochon floors. Browse our catalogue for inspiration!

GROUT

You've picked your tiles now enjoy picking a grout that either complements or contrasts. The design options are endless. Just remember that if you're using a natural material, we would advise steering clear of grouts that are too dark as they can stain the surface of the stone.

Resin-Cement Grout is...

- ✓ Water-repellent
- ✓ Very low water absorption
- ✓ High surface hardness
- ✓ Resistant to acids
- ✓ Natural antibacterial properties
- ✓ Underfloor heating compatible

Stain Proof Resin Grout is...

- ✓ Water resistant
- ✓ Stain proof
- ✓ Easy to clean
- ✓ Ideal for mosaics
- ✓ Ideal for wet areas

ADHESIVES & PREPARATION

ADHESIVES

Premium White Semi-Rapid Adhesive

Single part, semi-rapid setting flexible adhesive for porcelain, mosaic and natural stone. It is specially formulated with enhanced adhesion and flexibility, making it ideal for areas where slight movement or vibration can occur. 3-20mm bed thickness. Coverage: 4.5kg per m² at 3mm bed thickness.

20kg £35.15 inc VAT

PREPARATION

Pre-Tile Primer

Acrylic primer for sealing porous surfaces and anhydrite screeds prior to tiling. Coverage: 0.15-0.25kg per m².

1kg £13.76 inc VAT
5kg £51.92 inc VAT

Levelling Compound

Flexible, reinforced floor levelling compound. 2-50mm thickness. Use over timber, screed and underfloor heating.

20kg £41.76 inc VAT

MOVEMENT MATTING

Structured Decoupling Matting

Polyethylene membrane with a grid structure of square cavities, each cut back in a dovetail configuration and an anchoring fleece laminated to its underside. This 3mm thick matting is designed for tile and natural stone installations, over new subfloors and underfloor heating.

£18.14m² inc VAT

Matting Adhesive

Acrylic paste adhesive to adhere movement mattings to anhydrite or timber substrates. Coverage: 300-400g per m².

5kg £57.84 inc VAT
18kg £206.56 inc VAT

TEMPORARY FLOOR PROTECTION

Fire-retardant Membrane

Premium loose-lay, breathable protection sheeting for use after grouting. Enables floor to breathe while tiling cures and dries.

£3.76m² inc VAT

Protective Card

Loose-lay, breathable protection sheeting for use after grouting. Enables floor to breathe while tiling cures and dries.

£2.51m² inc VAT

ANCILLARY STONE & TILE CARE

We want to ensure that your stone and tiles look as good tomorrow as they do today. Take care of your stone and tiles by using our products that we recommend, over the next couple of pages.

GENERAL CLEAN & CARE

All Clean

High-quality concentrated cleaner for routine use. For use on all types of stone and tile. Coverage: Up to 40 washes per 20m² per litre.

1 Litre **£15.26 INC VAT**
5 Litres **£60.12 INC VAT**

Clean & Sheen

High-quality concentrated cleaner for routine use. This gradually builds a light sheen. For use on all types of stone and tile. Coverage: Up to 40 washes per 20m² per litre.

1 Litre **£22.49 INC VAT**
5 Litres **£78.02 INC VAT**

REFURBISHING & TROUBLESHOOTING CLEANERS

Deep Clean

Heavy-duty intensive cleaner and remover. For use on all types of stone and tile. Coverage: approx 20m² per litre depending on level of cleaning required.

1 Litre **£18.28 INC VAT**

Cement, Grout & Salt Residue Remover

Rapid action cleaning agent for removing cement residues, grout stain, salts, efflorescence and other similar deposits. For all types of unpolished natural stone and porcelain, glazed ceramic, slate, quarry tiles, brick, terracotta and granite. Coverage: Approx 5-25m² per litre.

1 Litre **£28.45 INC VAT**

Paving Deep Clean

The perfect product to remove stains and markings on external tiles. Suitable for natural and reformed stone, as well as porcelain.

5 Litres **£60.00 INC VAT**

IMPREGNATING SEALERS

Stain Block

Solvent-based impregnating sealer for pre and after grouting for interior use. For use on all types of natural stone and terracotta. Coverage: Approx 15m² per litre depending on the porosity.

1 Litre **£49.45 INC VAT**
5 Litres **£218.88 INC VAT**

Stain Block Eco

Water-based impregnating sealer for pre and after grouting for interior and exterior use. For use on all types of natural stone, reformed stone, and terracotta. Coverage: Approx 15m² per litre depending on the porosity.

1 Litre **£44.83 INC VAT**
5 Litres **£157.04 INC VAT**

Crackle Glaze Protector

Helps protect tiles from penetration by water, dirt, oil, grease, limescale and other household contaminants. For use on crackle glaze tiles and grout joints. Coverage: Approx 10m² per 0.5 litres.

0.5 Litre **£30.94 INC VAT**

Boiled Linseed Oil

For protecting and enhancing machine and handmade terracotta. Fills and hardens within the open pores of the terracotta inhibiting the absorption and enhances the strength of the tile. Coverage: Approx 6m² per litre depending on the porosity.

2 Litre **£37.28 INC VAT**

SURFACE TREATMENTS

Stone Shield

Liquid satin finish sealer for interior use. For use on unpolished natural stone, reformed stone, and terracotta. Coverage: Approx 15m² per litre depending on the porosity.

1 Litre **£26.95 INC VAT**

Beeswax Polish Antique

Colour enhanced soft paste wax for ageing the appearance of natural terracotta and stone. Provides extra surface protection and patination, applied after sealing, requires buffing. Coverage: 10m² per litre (two coats).

1 Litre **£46.30 INC VAT**

Porcelain Pre-Grout Barrier

A surface treatment that creates an invisible barrier on the tile's surface, preventing grout and dirt becoming ingrained in the surface of textured tiles - making cleaning easier.

1 Litre **£36.00 INC VAT**

GLOSSARY

Our stone comes in a range of finishes for aesthetic or practical effect. In a bathroom, for example, a textured finish will provide better slip resistance; whereas if you are restoring a heritage property, an ageing process such as ‘seasoned’ helps match to existing materials.

Please note: these descriptions are only a guide because every stone is unique and reacts to the finishing process differently.

FINISHES APPLIED TO NATURAL STONE

Distressed
The edges of the stone are chipped by hand and cushioned using diamond grinding pads. This process gives a more refined time-worn appearance than our seasoned finish.

Etched
The face of the stone is sand-blasted to create a low-slip finish, perfect for external and wet areas. The process creates a more contemporary ‘bleached’ look, which looks seamless when run from inside to outdoors.

Handmade
Handmade refers to our terracotta collection, where raw clay is worked into moulds by hand, before being left to dry and baked.

Honed
Planing the surface of the stone with a machine at high-pressure, using diamond pads, creates a smooth satin or matt finish. The edges are diamond-sawn and typically contain imperfections; once grouted, these blend into the stone for a truly natural effect.

Reclaimed/Recycled
Genuinely reclaimed products are often more than 100 years old. Each tile varies and requires a little more attention on site to create the perfect finish.

Riven
A riven finish is naturally split along the strata of the stone to create

an authentic surface that will vary from stone to stone. Riven stone tends to disguise the wear and tear of everyday family life.

Satino
Satino finished stone undergoes a high-pressure brushing process, to uncover its natural character. The edges are usually straight and slightly rounded.

Seasoned/Heritage
With heavily tumbled edges and a textured surface, which is either naturally-occurring or applied, Seasoned/Heritage stone has a rugged, flagstone effect.

Tumbled
Tumbled stones are individually placed in a jumbo rotating vat, which is full of pebbles, to create naturally soft, round edges, much like pebbles on a beach. This is great for replicating a ‘lived in’ look that is not too rustic.

Tumbled & Etched
This is an extra etching process that is applied to tumbled stone to increase slip resistance. The stone undergoes a washing process that etches the surface, to improve the anti-slip properties whilst retaining its natural warmth and colour.

Velvet/Natural
Velvet/Natural finished stone is first etched, creating a ‘bleached’ look, and then undergoes a satino process which gives it a tactile, velvety feel underfoot. This finish works effectively in both traditional and modern interiors.

Weathered/Vintaged
This finish is the result of an intensive process where the edges of the tile are chipped, exposing an open-grain surface, which authentically replicates the appearance of ancient flagstones.

Worn
A worn finish is created through a smoothing process applied to riven stone, either by hand or machine. This grinds down the natural undulations of the surface to create the effect of old flagstones.

FINISHES APPLIED TO PORCELAIN AND CERAMIC

Matt
Low sheen with some texture or graining. Varies depending on tile.

Satin
Low sheen and smooth to touch. Varies depending on tile.

Gloss
A shiny finish glaze. Some glazes are designed with a crackle effect and require sealing. Polished finishes are more susceptible to scratching, especially floors.

Polished
Highly polished by mechanical process. Polished finishes are more susceptible to scratching, especially floors.

Textured
Normally matt with some relief to the surface.

STONE & TILE TYPES

NATURAL STONE
Perfectly imperfect – the beauty of natural stone means that there will be variations from piece to piece. There is no such things as a “perfect” piece of stone, which is what we love most about the unique nature of our products in this collection.

LIMESTONE
Geology
A sedimentary rock mostly formed during the Jurassic period by deposits of shells collecting on the sea-bed and being compressed over time.

Key quality
Shell and fossil patterns and an infinite range of shades – usually from cream through to yellow, but also encompassing white and black.

MARBLE
Geology
The geological process that produces the prominent veins and quartz in the surface of marble is called recrystallization. The vivid colours vary depending on the prevalent minerals in the area from which it is quarried.

Key quality
Very hard and very smooth, with myriad colour tones and markings that are beautiful and mesmerising to look at.

SANDSTONE
Geology
A sedimentary rock made up of compacted grains of sand, bound together by a secondary mineral such as calcite, clay or silica.

Key quality
Hardwearing, frost-resistant and low-slip make it ideal for outdoors.

SLATE
Geology
A fine-grained rock derived from an original sedimentary rock made of clay or volcanic ash.

Key quality
The natural, slight undulations in the stone (caused by the way it is split when quarried) give it instant character. The dark colour makes it easy to maintain.

TONAL VARIATION
Natural stone almost always has some tonal variation from tile to tile and slab to slab. Natural stone and terracotta can carry slight chips and other blemishes. Allowances should be made for variations in size and thickness. To assess the natural variation of stone, we always recommend that you stand at least two metres away and look at the overall effect rather than each tile or slab, just as you would view a work of art by looking at the whole picture, before you start to inspect the brush strokes and the detail.

TILES
PORCELAIN
Porcelain tiles are made from a mixture of clays and minerals and fired at a very high temperature. This means that they are extremely hard wearing and very strong.

Tip: Due to the nature of the manufacturing process, porcelain tiles may be subject to a very slight ‘bow’ along the length of larger tiles (this can normally be corrected using a specialist clip system). This slight bowing, which will fall within European Standards (and please be assured that all our tiles are CE compliant), can cause slight ‘lipping’ between one tile and the next. If you wish to minimize the effect of this, we recommend that tiles should be laid square, or staggered by not more than a third of a tile length, rather than laying brick-bond.

CERAMIC
Ceramic tiles are made using a clay based material that is then decorated with an undercoat. Once this has been applied, a glaze is then poured over the top. Ceramic tiles are typically recommended for use on walls only (unless specified that they can be used on floors) due to their strength. Crackle glaze ceramic tiles will require sealing.

GLASS
Glass has its own beauty, but can also be transformed by the natural or ambient light with sparkles, reflections and fascinating changes of colour. It’s easy to maintain and non-porous. Some of our mosaics are made up of recycled glass, making it a sustainable choice.

RECTIFIED & NON-RECTIFIED TILES
Tiles are normally pressed in a mould then fired which causes them to shrink, so most larger format porcelain (30 x 60 upwards) and some ceramic tiles are then cut down to a specific size before packing to ensure that they do not vary to much in size, enabling a tighter grout joint, this process is know as rectified. Smaller format tiles are rarely rectified because they shrink less and do not require this extra process, they are known as non-rectified and recommend a 3mm minimum grout joint and spacers need to be used with care or not at all.

For any larger format tiles we offer are non-rectified you will find this information on the product page and we do not recommend to mixing them for example in a chequer pattern.

INSTALLATION

INTERIOR SPACES

Please note these are very general guidelines and not definitive instructions. The issuer of these guidelines cannot be held responsible for installation. It is always recommended that a qualified and professional tiler should take responsibility for the installation of all stone and tile products. We recommend that your installer has adequate understanding of how to install our artisanal materials to ensure the best results.

We always recommend ordering 10-15% extra material for wastage when installing, if your order has suffered any minor damage in transit, we suggest you keep these tiles aside for cutting.

On receipt of your order

When you receive your order, please check that you have all your tiles and that they are in good condition as any discrepancies cannot be resolved after installation.

Some general points

- Prior to installation you should store your tiles in a dry place.
- Do not install tiles during very hot weather.
- Avoid direct sunlight on to natural stone during installation (prior to sealing the tiles).
- Never use acids or undiluted alkaline solutions to clean natural stone, unless for troubleshooting.
- Always ensure that surfaces are properly sealed on natural stone and crackle glazed tiles before grouting.
- Do not cover newly installed surfaces with non- breathable membranes such as self-adhesive plastic sheeting or plywood sheets. If surfaces need to be covered after installation, use a good-quality decorator's sheet or a thin specialist protective card instead.
- Always refer to the manufacturer's guidelines on the packaging of installation materials or data sheets, available on request.
- It is important to shuffle your tiles from pack to pack before you install them, to ensure an even blend of tones, this is particularly important for natural stone and more artisanal products.
- It is known in this industry that porcelain tiles and paving exceeding 75cm in length and/or width have a slight bow to them. This bowing occurs as a natural

result of the drying process – it's a characteristic of the product and not classed as a fault. When tiling with a brick bond pattern with large format porcelain tiles, offset each row from the previous row by no more than one third of the tile's length. This will ensure that the bowing does not adversely affect the look of your tiled area, however we suggest you check your particular tile before you install and decide what is best for you. We also recommend using levelling clips, as this will ensure a good, finished result is achieved.

Prior to installation

Both sides of the tile should be wiped clean of any dust before installation and the top surface should be wiped again after installation and before grouting takes place.

The subfloor or wall should be a flat, level, and stable surface to tile on to.

If tiling over a timber surface, the floor will need overlaying with a specialist tile backerboard. You can also use this product to tile on to timber- framed walls, we do not recommend tiling onto plaster board, especially in wet areas.

We recommend to pre-tile prime all surfaces that are going to be tiled using our Pre-Tile Primer, diluted as per the instructions on the packaging.

If you are tiling on to walls and floors in wet areas, we recommend you fully tank (waterproof) prior to tiling with a specific paint on tanking system.

If you are tiling on to an underfloor, heated screed, or a newly poured screed (once it's fully dried and cured, please refer to the manufacturers' instructions regarding this) the floor will need pre-tile priming and overlaying with a movement decoupling membrane such as our Structured Decoupling Matting. This will help prevent any shrinkage or cracking that may occur in the screed being transferred through to the tiles.

Cutting stone & tiles

Natural stone and tiles can be cut using a diamond blade – ideally a water-cooled machine to keep dust to a minimum.

Some porcelain, glass and ceramic tiles can be cut with a scribe and break type cutter.

Grout joints, spacers & levelling clips

Grout joint width is a personal choice however when using spacers extra care must apply when tiling natural stone, non-rectified porcelain and smaller format tiles because these products have higher tolerances in size variation that can cause some challenges when using set size spacers.

When installing natural stone in one of our random repeating patterns (French, Dutch or Spanish for example), we advise dry laying a pattern set to establish the required grout width to make the pattern flow, with such patterns it is normal that these joints will vary so it is best to avoid using set size spacers and use wedges/packers. Once grouted this variation will be hardly noticeable and part of the feature of a random looking floor.

Commonly known as LASH clips, this stands for Level, Align, Space & Hold. Levelling clips are a two-part system consisting of a clip and a wedge, ensuring your tiles are absolutely level without any lipping or exposed edges that can be caused by slightly bowed tiles. They can align tiles from 9-15mm thick ensuring even grout joints and can be used for both wall and floor tiling. The holes in the base of the clip allow for the adhesive to pass through, ensuring no voids are left under the tile.

Installation

Use a good-quality, flexible, white, tile-adhesive, such as our Premium White Semi Rapid Set (carefully follow any instructions on the packaging) and apply with a notched trowel.

Ensure 100% adhesive coverage of each tile and the subbase, never dot and dab. Remove excess adhesive with a damp cloth quickly before it hardens or stains the tile.

Level the tiles using hand pressure only, where possible. Using a mallet or rubber hammer could cause cracking.

Preparing before sealing and grouting – natural stone and terracotta

Clean and condition the surface using a diluted solution of alkaline cleaner such as our Deep Clean (diluted 1:10 with water). This will help ensure that any dust, dirt, and grime that may have accumulated during the installation process is removed. A properly cleaned and prepared surface will improve the efficiency of the sealer.

Sealing your tiles – natural stone, crackle glaze and terracotta

Once your tiles are installed you will need to use an impregnating sealant for protection prior to grouting such as our Stain Block (or for crackle glaze tiles a crackle glaze sealant).

Preparing before grouting – porcelain and ceramic tiles

Clean the surface using fresh clean water. This will help ensure that any dust or grit that may have accumulated

during the installation process is removed, preventing the risk of scratching the tiles when being grouted.

Grouting

We recommend using lighter coloured grouts for most products, in particular natural stone and matt/textured glazed tiles, rather than black or bright coloured as these can cause staining on light materials, this staining is particularly hard to remove.

- Ensure you have selected a grout product that is suitable for use with the chosen tile material and desired joint width.
- Ensure that you wipe away any excess grout with a sponge and regularly change the water before the grout dries. Avoid raking out the grout in the joints and do not allow water to puddle.
- Before the grout has fully set wash again with a damp sponge to ensure as much residue is removed with a solution of alkaline cleaner such as our Deep Clean (diluted with 1:20 with water).

Finishing after grouting – natural stone and terracotta

Natural finish: (Typically smooth finish materials)

Apply a final coat of impregnating sealer making sure to cover grout joints as well, you will then need to remove any excess unabsorbed sealer after approx. 30 mins depending on atmospheric conditions.

OR

Satin finish: (Typically for more rustic and porous materials, especially terracotta) Further to the above and only if the stone is not used in a wet area, you can apply a surface coating such as our Stone Shield or Bees Wax Polish. This will offer further protection; it will help fill the natural pores and gives the product an attractive patina.

Finishing after grouting – porcelain and ceramic tiles

For crackle glaze apply a second coat of crackle glaze sealant.

Dry buff the tiles with a clean cloth to remove any final grout residue.

There is the option to further seal the grout joints if desired using our Stain Block Eco. When using this remove any excess liquid immediately.

On very matt porcelain floors you can apply our Stone Shield in non-wet areas to help ease the cleaning required and enhance the appearance of the tile.

INSTALLATION

General care – stone & tiles

As long as you are confident you have selected the right type of product for the space and your lifestyle, caring for your floors and walls doesn't have to be a chore. Here are a few essential steps.

Firstly, keep floors as free as possible of loose dust and grit with regular vacuuming or sweeping. This will greatly reduce the 'sandpaper' effect that can occur on the surface and will reduce dirt getting compacted into the surface and joints. We recommend washing the floor with a damp mop – firstly, to remove the dirt that a vacuum won't pick up, and secondly for hygiene. Avoid using too much water as this tends to spread the dirt from one area to another, whereas a well rung or fibre mop will lift it up.

We strongly recommend that you use specialist cleaning products. The harsh, acidic household products can 'bruise' your stone and break down protective sealants or attack some coloured glazes on tiles.

Ideally, use a product that is PH neutral, bio-degradable, and environmentally friendly. We recommend our All-Clean product. This can be diluted in water for a traditional mopping method or in a ready to use solution for use with microfibre mopping systems for floors and the same product with a mist spray and microfibre cloth for walls.

Avoid using steam cleaners on natural stone – they may clean some surfaces, but the hot steam can remove the sealer and damage the surface over time.

Maintenance – natural stone

Using the correct specialist cleaning product will greatly reduce the frequency of more intensive cleans and reseals.

General wear of the surface from foot traffic over time exposes capillaries, or tiny cracks and these can accumulate dirt and grime. Therefore, we recommend a more intensive clean every 3–4 years, with a heavy-duty product that will dissolve ingrained dirt and grease, such as our Deep Clean.

A common misconception is that every natural stone surface needs resealing every few years, but this will depend on the particular stone and its use. You can normally tell if a stone needs resealing by wetting the stone and leaving for around five minutes before wiping off. If the water leaves a mark by darkening the stone this will mean the stone is becoming more porous and would benefit from a top-up.

You should first give it an intensive clean with a product such as Deep Clean, this will help to allow the sealer to penetrate.

If the stone has had a surface coating applied, it is most likely that this is all that will need to be reapplied, not the original impregnating sealer, unless the stone has become extremely porous.

For stones with a natural finish, apply a coat of impregnating sealer such as our Stain Block and wipe off the excess after around 20 minutes and repeat if required. Do not allow any of the product to dry on the surface.

Please note that it is perfectly normal for natural stone to mature with use and time and for its appearance to evolve as part of its intrinsic beauty.

EXTERIOR SPACES

Please note these are very general guidelines and not definitive instructions. The issuer of these guidelines cannot be held responsible for installation. It is always recommended that a qualified and professional tiler should take responsibility for the installation of all stone and tile products. We recommend that your installer has adequate understanding of how to install our artisanal materials to ensure the best results.

These are brief guidelines for working with natural stones and man-made paving. This general guidance does not imply any guarantee by Ca' Pietra.

We always recommend that a qualified and professional installer should take responsibility for the specification and installation of all stone and tile products.

Current and appropriate industry standards and codes of practice should be observed in all instances. However, if you do decide to install the stone or tiles yourself, we strongly recommend that you do plenty of research into materials and methods, and seek the best advice on how to carry out the installation.

On receipt of your order

When you receive your order, check that you have all of your tiles and that they are in good condition as any discrepancies cannot be resolved after installation.

When you take delivery of your order

Check that you have all your slabs and that they're in good condition. Remember, with natural or handcrafted products there will always be some variations in colour tone, veining, surface texture and natural characteristics.

Tip: Keep the tiles on a level, stable surface, stored vertically to avoid any risk of cracking.

Before you install

Tips:

- Wipe both sides of the tile clean with a sponge and clean water before installation to remove dust. This will ensure good adhesion.
- Don't install slabs in freezing or cold conditions.
- Give yourself a dry run by laying your slabs or tiles as they will eventually be laid. This enables you to check you have the correct number and size of slabs and colour blending.
- When installing a flagstone, it is important to ensure it is laid the right way up (one way to identify the top, is to look at the sides of the slab – which usually taper inwards, so that the top is slightly wider than the underside). If in doubt it's always best to ask a stone expert.
- With natural stones, randomly select and mix tiles from the different boxes or crates you receive to ensure a tonal blend across the entirety of the new surface and avoid any colour banding.

General preparation

The golden rule is: tiles must always be 'solid bedded' – in other words, avoid any cavities underneath the material.

The bed should support the full slab, not just the corners or in dots/dabs. Do not 'spot' bed as this can cause 'through bed staining' and will weaken the integrity of the paving. (Please note that precise standards, falls, bed thicknesses and other specifications may vary dependent on the actual application. You should always refer to appropriate and current standards and codes of practice.)

Cutting tiles

Tiles can be cut using a diamond tipped blade – ideally a water-cooled machine for the cleanest cutting. There are different blades for natural stone and for porcelain so it's important to have the correct one.

Levelling your tiles

Thin tiles (up to 1cm) should be levelled using hand pressure only. A rubber mallet hammer can be used for thicker, more robust slabs.

Substrate preparation and installing the tiles

There are several different methods of installation for external paving.

The two most common methods are:

Option 1: If the external works are a continuation of the internal tiling – lay a structural concrete screed, to the appropriate current standards, with the required sub-base. Ensure that adequate falls, cross falls and intersections are accurately created in the screed to fine tolerances, for good levels of drainage. The tiles can then be installed using a flexible thick-bed floor tile adhesive (suitable for external use) following the same tiling standards as internal flooring.

A 10mm notched trowel will provide a 5mm finished adhesive-bed thickness. Leave 6mm wide expansion joints in accordance with current BSEN requirements and at changes of plane. You should fill these joints with exterior grade mastic, matched to the grout/joint colouration.

Option 2: If you are laying external works as 'slab paving' rather than tiling – the appropriate sub-base should be laid and well compacted. For good stability this is usually an even 10cm-thick, compacted layer of type 1 granular aggregate (40mm to dust). For most domestic applications a sub-base of 10cm should be sufficient. However, the paving design must be based on ground conditions as well as type and frequency of anticipated loads.

As previously described, falls, cross-falls and intersections must be carefully formed. You should incorporate a minimum fall of 1.25% (1 in 80) and crossfall of 2.5% (1 in 40) in the sub-layer construction to provide adequate surface-water run-off. Use a ratio between 4:1 and 6:1 of sharp sand, cement and plasticiser (to BSEN requirements). Prepare a base of mortar beneath the slabs – normally around 30-50mm thick.

PATTERNS

Products that are supplied in ‘patterns’ consist of combinations of set size flagstones, which enable you to follow classic patterns such as American, Dutch, French, Greek, and Spanish as illustrated here.

This means you can lay your natural stone or man-made floor to these patterns without the waste associated with cutting uniform tiles to appropriate sizes.

So, for example, one set of ‘Dutch pattern’ consists of 11 stones, and 3.33m2 in total. Some of our products (primarily natural stone) are available in different widths and random lengths, so that you can choose whether to lay floors in your own free form pattern, or in a regimented design (see fig 1).

When buying a pattern you must buy at least one complete set of tiles and therefore a minimum number of square metres, depending on the exact number of tiles within that pattern.

French pattern Fig 2

Each repeat is 1.44m² with 12 stones in each repeat.

Stone	Dimensions (cm)	Quantity
A	40 x 60	2
B	40 x 40	4
C	20 x 40	2
D	20 x 20	4

Greek pattern Fig 2

Each repeat is 2.72m² with 12 stones in each repeat.

Stone	Dimensions (cm)	Quantity
A	55 x 82	2
B	55 x 55	4
C	27 x 55	2
D	27 x 27	4

American pattern Fig 2

Each repeat is 5.76m² with 12 stones in each repeat.

Stone	Dimensions (cm)	Quantity
A	80 x 120	2
B	80 x 80	4
C	40 x 80	2
D	40 x 40	4

Spanish pattern Fig 2

Each repeat is 3.24m² with 12 stones in each repeat.

Stone	Dimensions (cm)	Quantity
A	60 x 90	2
B	60 x 60	4
C	30 x 60	2
D	30 x 30	4

Dutch pattern Fig 3

Each repeat is 3.33m² with 11 stones in each repeat.

Stone	Dimensions (cm)	Quantity
A	62 x 91.8	3
B	61 x 61	2
C	30.5 x 61	4
D	30.5 x 30.5	2

Marlborough Terracotta Fig 4

Square and Picket Pattern

This is the module repeat

Total area = 0.09m²

(approximate sizes & joint width)

1m²/0.09m² = 10.81 units

(approx. 11 square units/22 picket units required per m²)

Opus pattern Fig 5-7

With Opus it is possible to make three different patterns. Each repeat is 0.72m² with 5 tiles in each ‘repeat’

Tile	Dimensions (cm)	Quantity
A	40 x 60	1
B	40 x 40	2
C	20 x 40	1
D	20 x 20	2

DELIVERY RATES

Below you'll find everything you need to know about delivery rates. We price based on volume, and deliver via parcel or pallet network. It's also worth knowing that all parcels are delivered kerb-side.

Stone and Tiles - Formats less than 35 x 35cm and up to 1.3cm thick

	Up to 1m²	Up to 2m²	Up to 3m²	Up to 4m²	4m²+
Mainland UK	£19.55 <small>Inc VAT</small>	£28.75 <small>Inc VAT</small>	£40.25 <small>Inc VAT</small>	£51.75 <small>Inc VAT</small>	See pallet rates
Scotland	£19.55 <small>Inc VAT</small>	£28.75 <small>Inc VAT</small>	£40.25 <small>Inc VAT</small>	£51.75 <small>Inc VAT</small>	See pallet rates
Highlands and Islands	£44.85 <small>Inc VAT</small>	£54.05 <small>Inc VAT</small>	£65.55 <small>Inc VAT</small>	£77.05 <small>Inc VAT</small>	See pallet rates

Stone and Tiles - Formats less than 35 x 35cm and between 1.3 and 1.6cm thick

	Up to 0.5m²	Up to 1m²	Up to 1.5m²	Up to 2m²	2m²+
Mainland UK	£19.55 <small>Inc VAT</small>	£28.75 <small>Inc VAT</small>	£39.10 <small>Inc VAT</small>	£51.75 <small>Inc VAT</small>	See pallet rates
Scotland	£19.55 <small>Inc VAT</small>	£28.75 <small>Inc VAT</small>	£39.10 <small>Inc VAT</small>	£51.75 <small>Inc VAT</small>	See pallet rates
Highlands and Islands	£44.85 <small>Inc VAT</small>	£54.05 <small>Inc VAT</small>	£65.55 <small>Inc VAT</small>	£77.05 <small>Inc VAT</small>	See pallet rates

Ancillaries

	Up to 5ltr/kg	Up to 20ltr/kg	Up to 40ltr/kg	Up to 60ltr/kg	Up to 80ltr/kg
Mainland UK	£7.59 <small>Inc VAT</small>	£18.22 <small>Inc VAT</small>	£27.32 <small>Inc VAT</small>	£39.58 <small>Inc VAT</small>	£51.61 <small>Inc VAT</small>
Scotland	£7.59 <small>Inc VAT</small>	£18.22 <small>Inc VAT</small>	£27.32 <small>Inc VAT</small>	£39.58 <small>Inc VAT</small>	£51.61 <small>Inc VAT</small>

Pallet Rates Formats larger than 35 x 40cm

Mainland UK	£74.75 per pallet <small>Inc VAT</small>
Scotland	£131.10 per pallet <small>Inc VAT</small>
Highlands and Islands	£172.50 per pallet <small>Inc VAT</small>

Large format porcelain 120-150cm in length (excl. slabs)

Mainland UK	£117.30 per pallet <small>Inc VAT</small>
Scotland	£182.16 per pallet <small>Inc VAT</small>
Highlands and Islands	£215.05 per pallet <small>Inc VAT</small>

Deliveries to Mainland UK will be made in 3 working days.

Proper Good Paint – Flat rate delivery of £4.99 inc VAT whatever the order size on paint. Free delivery on sample pots.

Please Note - Pallet deliveries must be signed for, if a delivery is missed due to no one being in, there is a charge for redelivery at 50% of the original value.

Sculpture Ultima & Slabs

Delivery is priced on application based on the number of slabs and the location. We are currently unable to deliver these to all areas of the UK or Ireland. Please speak to your retailer for more information.

Surcharges

Parcel AM & Saturday Surcharges:
AM £12.00 inc VAT per delivery,
Saturday £36.00 inc VAT per delivery

Pallet Express Surcharge:
£24.00 inc VAT per pallet (see above)

SEE IT. TRY IT. WANT IT. YOU GOT IT.

Fancy getting in touch? There are a few ways to do it. Either call, email or visit our website. On our site you'll find a list of our retailers who are as tile-obsessed as us and ready to help too.
