VICTORIAN STYLE™
WALLS & FLOORS

YOUR VERY OWN VICTORIOUSLY VICTORIAN FLOOR

Think of a smart and stately Victorian home and what tiles do you picture? A patterned footpath going up to a stained-glass front door then more of the same in the entryway? A run of decorative micro tiles around a handsome cast-iron fireplace? Either or both, the point is, Victorian tiling has a character to it that's iconic and highly coveted with rich, heritage colour palettes and intricate patterns to bring visual textures and those all important Victorian vibes to your walls and floors. In fact, it's so highly coveted that we threw ourselves into designing a new collection of pre-scored porcelain reproduction tiles that couldn't be easier to install and live with. Because why should you have to choose over function or form when both can get along like a house on fire?

FINCHLEY

Taking tones from Victorian originals, Finchley gives you six colourways to choose from that have mega period-style panache. From the umber hues of Terracotta to uplifting Sky Blue, you've got instant colour and pattern with this mosaic that's full of geometric form.

FRAME

Frame looks simple, sure, with its less-is-more grid design in black and white, but just wait until you see it laid out. Understated gets dialled up to seriously statement-making yet still manages to act as a perfect foil to other period features in the room – cornicing, ceiling roses, high skirting and all. We recommend using alongside the Finchley design laid as diamonds, to create an iconic Victorian design.

MIX & MATCH MAGIC

Our Victorian tile collection isn't just about effortless to lay with its pre-scored nature that serves up mosaic-style floors with zero fuss. It's about ease of styling too, because every tile complements the next, giving you complete free reign to mix, match, combine and create a showstopper floor in a flash. Fancy rotating Frame & Chess Mono A to give rise to a dramatic diamond floor? Do it. Think Finchley and Frame would look rocking in a room together? Right on. How about the Field tile with Finchley? You got it. The sky (or the floor) is the limit.
