

CHEQUERBOARD TREND GUIDE

CA' PIETRA

CHEQUERBOARDS

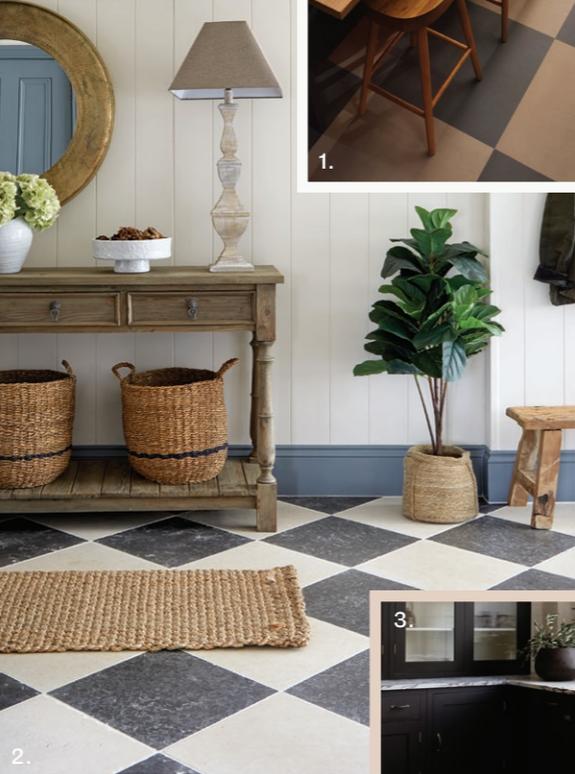

Whether you're planning a grand entranceway or a statement bathroom floor, the classic chequerboard is a design that never goes out of style. To inspire your next project, we've curated a guide to the perfect pairings - tiles and stones that complement each other beautifully and take the guesswork out of achieving this timeless look.

From rich marbles to playful porcelains, these dynamic duos are designed to bring balance, contrast and a sense of enduring elegance to any space.

Please note: All prices in this brochure are recommended retail prices including VAT. We try our best to ensure all images, descriptions and prices are accurate, if you see something in here that doesn't look right, please let us know and we'll make sure we amend it as soon as possible. When choosing a chequerboard combination, don't be intimidated by differences in thickness of up to 5mm. These can be overcome simply when tiling, by applying thicker or thinner adhesive beds on each tile, depending on their thickness. Whilst this may be slightly slower than standard laying, it allows for so many more inspirational chequerboard options. Please also note that chequerboard flooring, being produced in different batches, can vary slightly in size; thus some artistic variation in grout joint widths may be required. This is usually not noticeable. Ca' Pietra is a Ca' Pietra Group Limited brand, Stonebridge House, Nursted Road, Devizes, Wiltshire SN10 3DY © Ca' Pietra Printed in England
