

STONE GLAZE

CA' PIETRA

DESIGNERS, MAKERS, CURATORS

We are Ca' Pietra. A team of designers, makers and curators redefining the art of surface design.

STONE GLAZE

A celebration of artistry, our beguiling new Stone Glaze collection comes in a range of 17 enticing colours, from rich and moody hues through to easy-on-the-eye warm neutrals. Each tile is expertly handcrafted using time-honoured stoneware methods and features a thick, hand-applied glaze that captures the nuances of this ancient ceramic technique, honed over the centuries.

HANDSOME & HANDCRAFTED

Provenance and traditional methods are key to our beautiful Stone Glaze tiles. Local clay (a purer form than regular ceramics) is carefully sourced and shaped by hand using simple tools. The artisan's traditional way of working retains the clay's natural qualities and ensures each tile reflects the maker's touch.

Exquisite enamel glazes, made with colours crafted from natural metal oxides using formulas that have been passed down through the generations, give the tiles their distinctive, rich and nuanced appearance. The enamel glaze is hand-poured over the tiles, with the natural colour of the clay remaining visible

through the transparent glaze layer. The tile is then fired, when it becomes partially vitrified, increasing its strength.

Organic imperfections and variations, such as raised speckles, chips and blemishes, gentle bowing and movement, varying gloss levels, and tonal shifts and pooling (where the glaze has naturally gathered), contribute to the evocative finish that captures the tile's handmade nature. This means that no two tiles are the same, and the differences in tone ensure that any tiled surface in the home is infused with movement and depth. Due to the artisanal nature of this beautiful product, tiles should be spaced by eye and the use of spacer pegs avoided.

Designed for distinctive spaces

CURATED COLOUR STORIES

Earthy Tones

Soft Neutrals

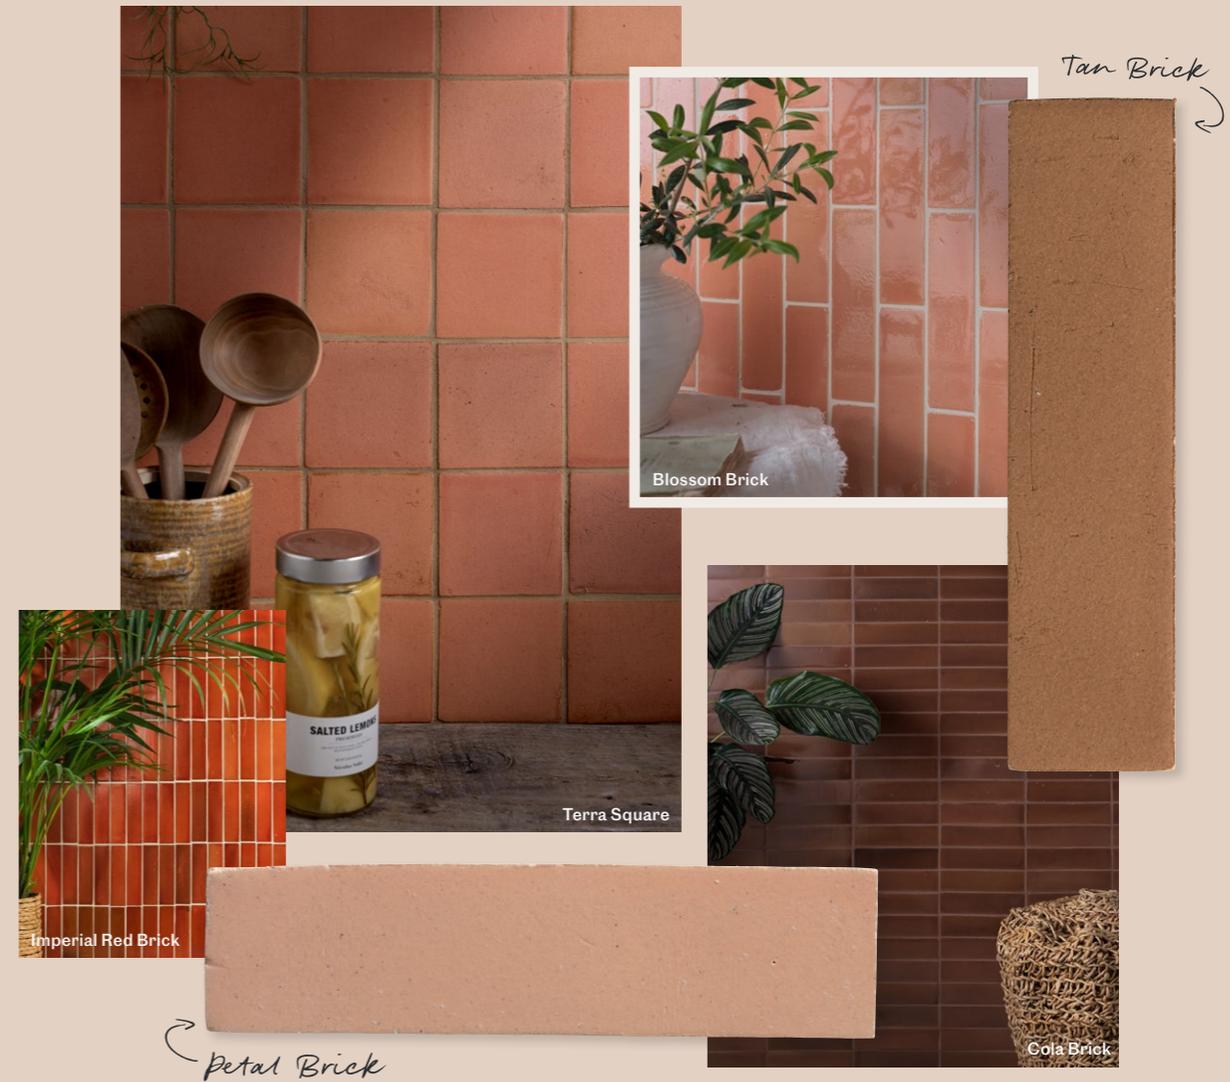

Nature Inspired Greens

The Stone Glaze collection has been carefully curated into three distinct colour stories – Earthy Tones, Nature-Inspired Greens, and Soft Neutrals. Whether you're drawn to grounded warmth, the refreshing palette of nature-inspired greens, or the serene simplicity of soft neutrals, each story provides a beautiful foundation to shape your space.

DESIGN NOTES

Our Stone Glaze Collection is produced in small, handcrafted batches leading to natural variations in size and colour that infuse each tile with a rustic charm and organic character.

INSTALLATION

To fully showcase the unique beauty of these tiles, we recommend blending tiles from multiple boxes across the surface during installation.

Due to natural variations in size and thickness, some laying patterns, in particular herringbone or basketweave - need a much more relaxed approach to installation. However, even more forgiving layouts such as stack bond or brick bond will benefit from a looser approach to being laid than you might expect with standard ceramic tiles.

LAYOUT POSSIBILITIES

Stone Glaze tiles offer versatile design options to suit a variety of styles. Each layout brings out a different facet of the tile's personality, allowing you to tailor the design to your space. Popular layout choices include:

Horizontal stack

Vertical stack

Mixed orientation – alternate vertical and horizontal rows for a dynamic look

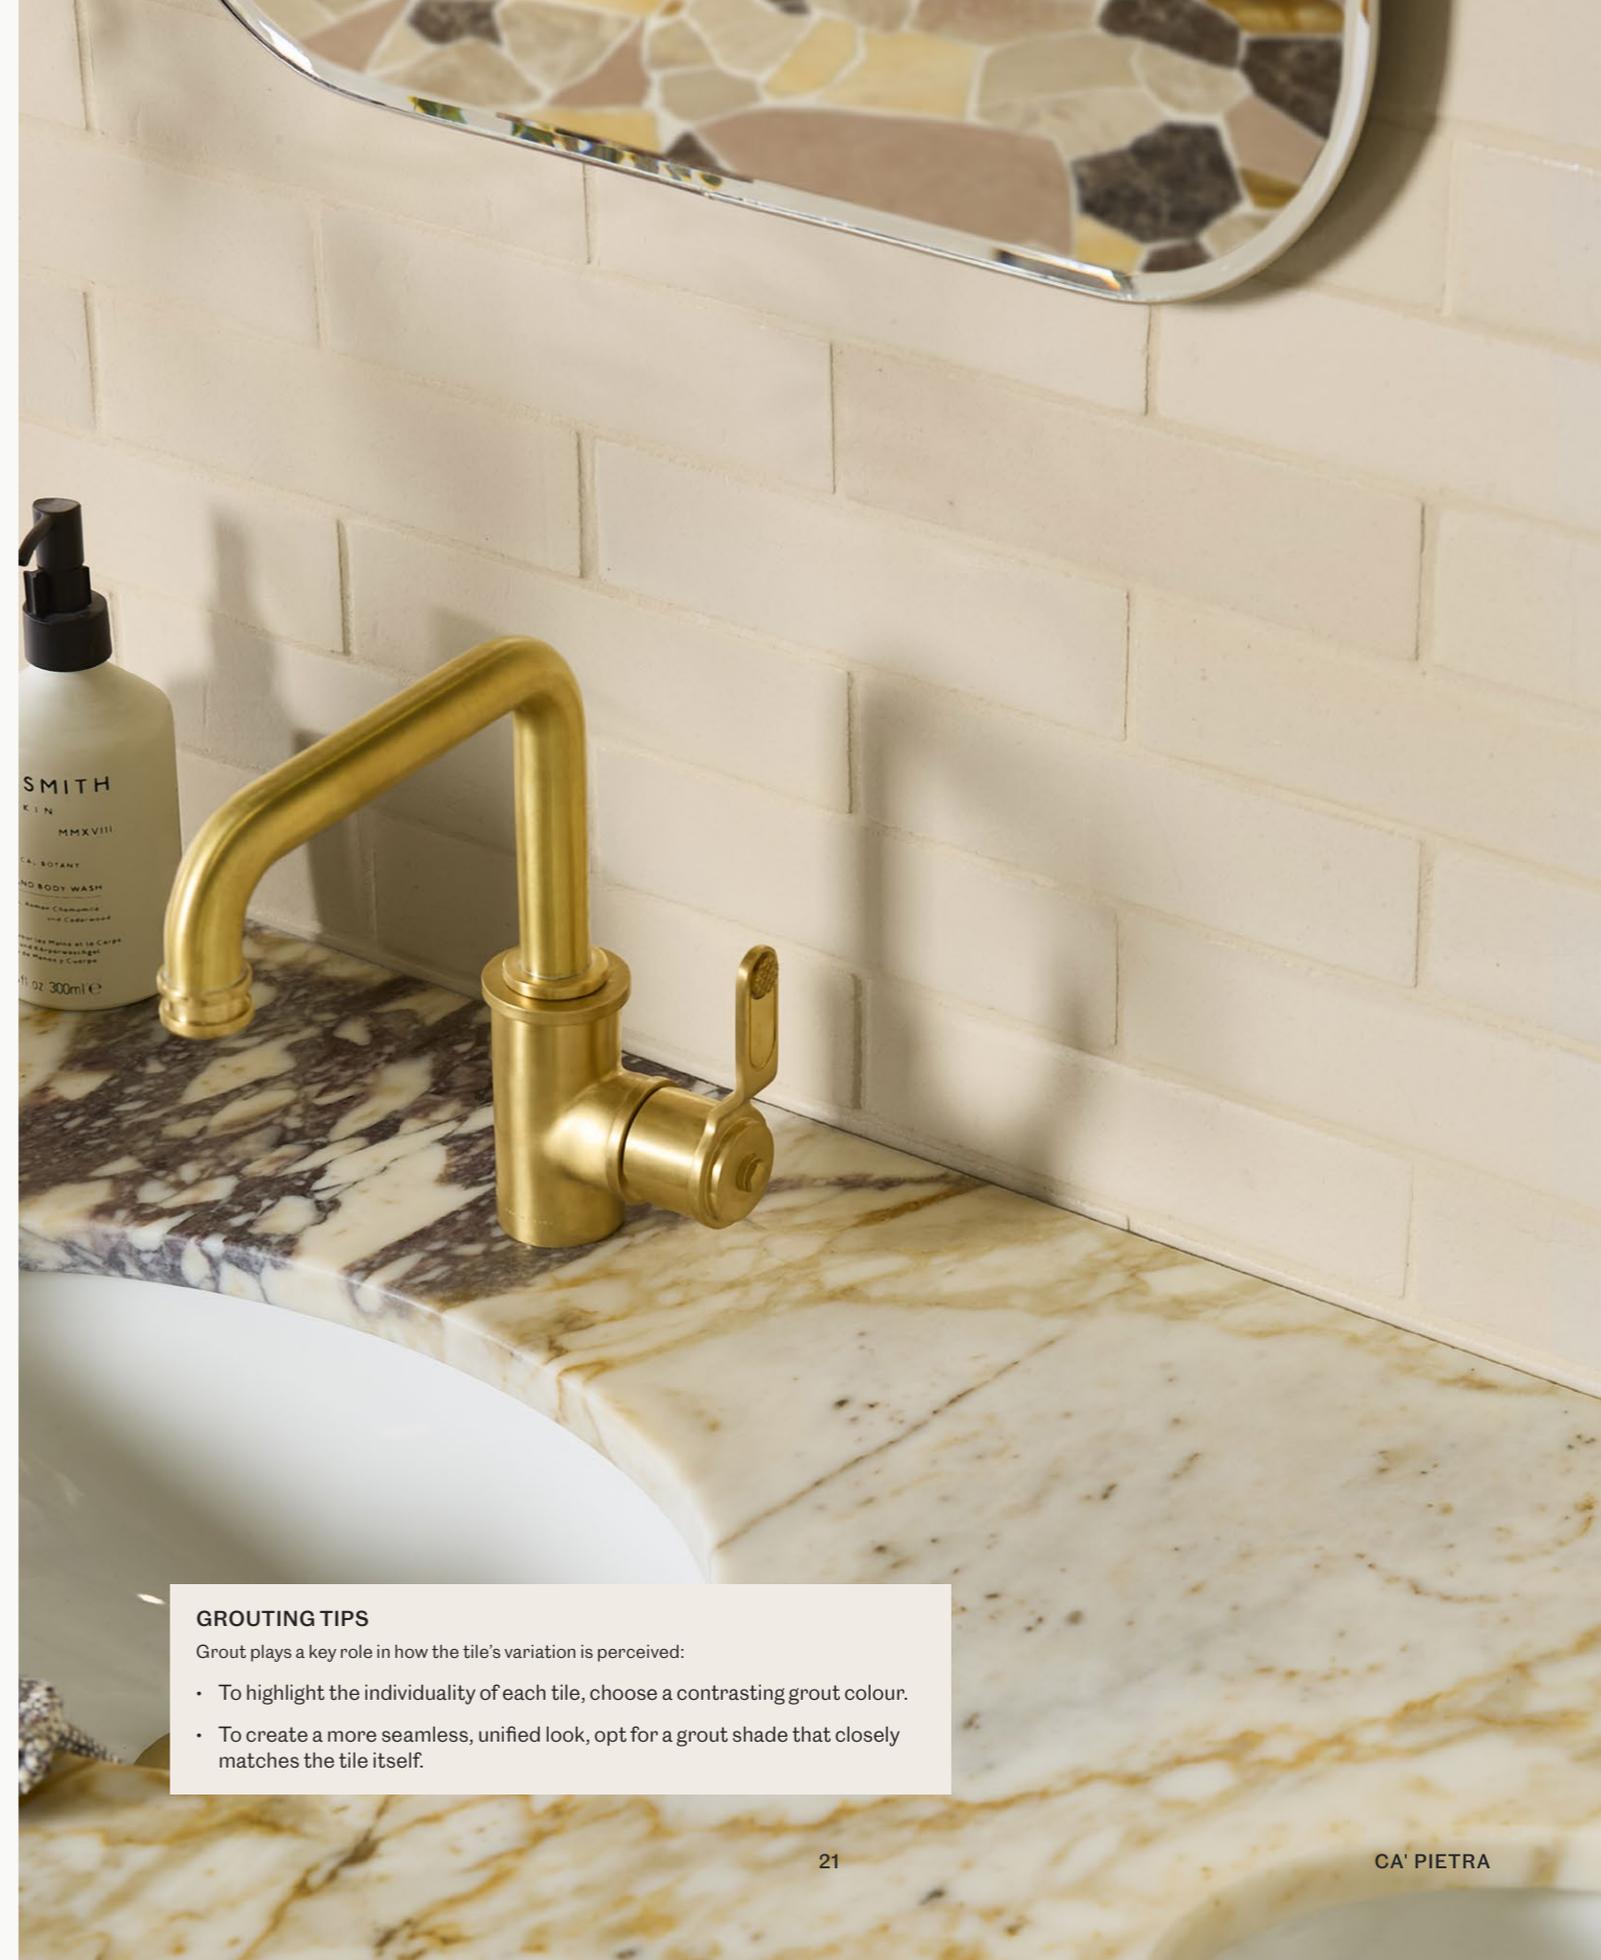

Brick bond

Offset or broken bond vertical stack

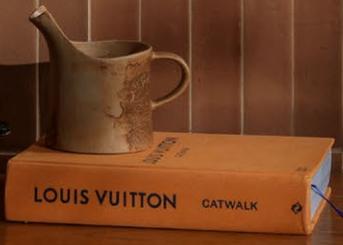

Herringbone – achievable with careful, eye-guided placement and appreciation for the tile's handmade nature.

GROUTING TIPS

Grout plays a key role in how the tile's variation is perceived:

- To highlight the individuality of each tile, choose a contrasting grout colour.
- To create a more seamless, unified look, opt for a grout shade that closely matches the tile itself.
